

1 October 2024

Scancell Holdings plc
("Scancell" or the "Company")

Notice of Annual General Meeting

Scancell Holdings plc (AIM: SCLP), the developer of novel immunotherapies for the treatment of cancer, announces that the Company's Annual Report and Accounts for the year ended 30 April 2024 and Notice of Annual General Meeting ("AGM") will be sent to shareholders shortly.

The Annual Report and Accounts for the year ended 30 April 2024 is available on the Company's website at <https://www.scancell.co.uk/investors/financial-info>.

The AGM will be held at 3.00pm GMT at the offices of Cooley (UK) LLP at 22 Bishopsgate, London, EC2N 4BQ on Friday 25th October 2024.

After the AGM, Scancell's senior management team will be presenting the final results for the year ended 30 April 2024 followed by a Q&A session, and all shareholders are invited to attend in person.

-ENDS-

About Scancell

Scancell is a clinical stage immunotherapy company that is leveraging its proprietary research, built up over many years of studying the human adaptive immune system, to generate novel medicines to treat significant unmet needs in cancer. The Company is building a pipeline of innovative products by utilising its four technology platforms: Moditope[®] and ImmunoBody[®] for vaccines and GlyMab[®] and AvidiMab[®] for antibodies. Adaptive immune responses include antibodies and T cells (CD4 and CD8), both of which can recognise damaged or infected cells. In order to destroy such cancerous or infected cells, Scancell uses either vaccines to induce immune responses or monoclonal antibodies (mAbs) to redirect immune cells or drugs. The Company's approaches are that vaccines (ImmunoBody[®] and Moditope[®]) use unique receptors to target antigens to activated antigen presenting cells whereas its mAb portfolio targets glycans or sugars that are added onto proteins and / or lipids (GlyMab[®]) or enhances the potency of antibodies and their ability to directly kill tumour cells (AvidiMab[®]).

Scancell is headquartered in Oxford, United Kingdom and is listed on AIM (LSE.SCLP.L). For further information about Scancell, please visit: <https://www.scancell.co.uk>.
